Your Pageant video includes not only "Backstage" which is Rob's production of all the "off-stage fun" from the river walk to the rehearsals...it also includes the entire pageant (minus the boring parts!) with close-ups of each of your stage appearances. Delivered in high-resolution DVD. The final product will probably be a 3-DVD set.

Your Personal Video Portfolio video is a keepsake of JUST YOU! Rob sets to music and special fx all the stage appearances you personally made during the pageant. If you have a Facebook, Myspace or a website, you've got to have this! It comes in high-resolution DVD. It's also available in .wmv (for embedding onto your website, Facebook or Myspace).

"I'm delighted to have been chosen as your video productions artist this year. I'll be delivering to you much more than just the pageant footage itself. You'll clearly see the difference in my work when you view my "Backstage" production or one of my Video Portfolios. These capture the essence of the weekend, and the essence of YOU! Come visit my website and enjoy viewing some of my work."
